PROFESSIONAL PROFILE

IT professional with over 8 years of hands-on experience in hardware repair, IT support, network infrastructure, CCTV security systems, and systems administration. Proven track record deploying secure LAN/Wi-Fi environments supporting 40,000+ users across academic and healthcare settings, with freelance project delivery for schools and healthcare facilities. Currently based in Dijon, France and commencing an MSc in Cybersecurity Management at ECE Paris (September 2026), with the goal of specialising in network security, threat management, and cybersecurity governance. Seeking roles in IT infrastructure, network engineering, or cybersecurity where hands-on technical experience can be combined with formal postgraduate training.

TECHNICAL SKILLS

Networking: TCP/IP, VLAN, DNS, DHCP, LAN/WAN design & deployment, Wi-Fi (Ubiquiti UniFi / M5 – 30+ APs), Cisco routing & switching (CCNA), VPN, Wireshark, Nmap, structured cabling, fibre & copper testing

Systems & Infrastructure: Windows Server 2012/2016/2019, Active Directory, Group Policy, Microsoft 365, SCOM/SCCM, backup & disaster recovery, VoIP installation

Security: CCTV installation & configuration (Hikvision, Dahua, Arlo, Sannce), network segmentation (VLAN), firewall configuration, IT security policies, infrastructure hardening, cybersecurity & ethical hacking

Hardware: Computer assembly, diagnosis & repair, peripheral installation, preventive maintenance, rack panel preparation, structured cabling termination

Development & Tools: WordPress, Next.js, React, HTML, CSS, Git/GitHub, PuTTY, Cisco Packet Tracer, GNS3, TryHackMe, AI-assisted development workflows

Design: Adobe Photoshop, Canva — book covers, event banners, social media graphics, marketing materials

Support & Operations: Tier 1/2/3 technical support, vendor coordination, IT training & documentation, project management, client management

PROFESSIONAL EXPERIENCE

Freelance IT Consultant & Network Engineer

Self-employed, Ghana | 2019 – Present | *Freelance*

- Delivered network infrastructure and security system projects for educational and commercial clients across Ghana
- Kwasi Oppong Schools: deployed 64+ CCTV cameras across two locations, complete Wi-Fi infrastructure, and a structured LAN network
- Ghanaian German International School: installed Arlo security cameras with integrated Wi-Fi and LAN connectivity
- Lucienne Community School: implemented a full Wi-Fi and LAN solution
- Completed 10+ projects on time and within budget, achieving 100% client satisfaction
- Installed and configured 50+ security cameras across multiple facilities (brands: Hikvision, Dahua, Arlo, Sannce, Anker, Blink, Kangaroo)

Senior IT Technician – Infrastructure & Systems

USTED (formerly AAMUSTED), Kumasi, Ghana | August 2022 – September 2025 | *Full-time*

- Managed IT infrastructure supporting 500+ staff and 40,000+ students across multiple campus buildings, responsible for servers, networks, and telecommunications
- Deployed 30+ Ubiquiti access points and 5 M5 point-to-point links, improving wireless coverage by 85% and reliability by 60%
- Designed and implemented the LAN and Wi-Fi network for a 1,500-seat lecture block, delivering 99.5% uptime

- Administered Windows Server 2012/2016/2019 and Active Directory for 300+ users, including group policies and security configuration
- Implemented automated backup solutions with weekly disaster recovery testing, achieving a zero data loss record
- Monitored server performance using SCOM, proactively resolving issues before impacting users
- Resolved Sisco Topaz financial software issues with a 95% first-call resolution rate
- Configured video conferencing infrastructure (Zoom, Teams) and delivered staff training programmes

IT Technician & Network Support / NHIS Claims Officer

Christ Church Mission Hospital, Sunyani Road, Kumasi, Ghana | October 2024 – September 2025 | *Part-time*

- Designed and implemented complete hospital LAN network infrastructure from the ground up, including structured cabling and Wi-Fi systems
- Administered Windows Server environment ensuring 24/7 availability for patient care systems
- Managed system security configurations to maintain HIPAA-compliant healthcare IT operations
- Maintained zero downtime for patient care systems through proactive monitoring and technical support
- Handled NHIS claims processing using ClaimIt application, maintaining sensitive healthcare data integrity

IT Technician – National Service

USTED (formerly AAMUSTED), Kumasi, Ghana | September 2021 – August 2022 | *National Service*

- Assisted senior technicians in configuring Cisco network equipment and basic routing and switching tasks
- Supported Windows Server and Active Directory administration including basic user account management
- Provided Tier 1 & 2 end-user technical support across multiple departments
- Set up and operated Zoom and live streaming equipment for campus meetings, viva examinations, and online gatherings
- Performed preventive maintenance and routine troubleshooting on IT systems

IT Support Technician

Seneps Data Solutions, Ghana | 2016 – 2021 | *Part-time*

- Diagnosed and repaired hardware and software issues for clients including desktops, laptops, and peripherals
- Installed and configured LAN networks for small businesses
- Provided end-user technical support and basic system configuration
- Performed preventive maintenance and routine troubleshooting across client sites

Freelance Graphic Designer

Self-employed, Ghana | March 2017 – Present

- Created professional designs including book covers, banners, and marketing materials using Adobe Photoshop and Canva
- Completed 500+ projects for Copy Doctor Publications and various clients

PROJECTS & DEPLOYMENTS

ProWIFETA Website — prowifeta.com

- Built a fully responsive association website for women in fashion education and training using React and JavaScript
- Includes mission sections, leadership profiles, gallery, events, membership CTA, and blog — deployed live

BritTech Portfolio Site — brit-tech.uk

- Designed and built a bilingual (EN/FR) personal portfolio site using Next.js, TypeScript, and Tailwind CSS
- Features project galleries, service sections, work-site media, and a downloadable profile

Network Lab Simulation (Cisco Packet Tracer)

- Designed and implemented VLAN segmentation and IP addressing schemes

- Configured inter-network routing and simulated real-world network troubleshooting scenarios

EDUCATION

MSc Cybersecurity Management — Incoming

ECE Paris - Ecole d'Ingenieurs (Eiffel Campus), Paris, France | September 2026 – Present

- Postgraduate programme focused on cybersecurity strategy, risk management, network defence, and information security governance

BSc Information Technology Education

University of Education, Winneba, Ghana | 2017 – 2021

- Second Class Honours (GPA: 2.85)
- Relevant coursework: Data Structures, Operating Systems, Database Systems, Network Administration & Security

CERTIFICATIONS

- Introduction to Network Routing – LinkedIn Learning (2025)
- Cybersecurity & Ethical Hacking – Networkwalks Academy (2022)
- CCNA: Routing & Switching – Cisco Networking Academy (2019)
- Networking Essentials – Cisco Networking Academy (2018)
