Experience

IT Technician & NHIS Claims Officer

Sunyani Road Church of Christ Mission Hospital

Oct 2024 - Sept 2025
Kumasi, Ghana
Part-time

- Designed and implemented the hospital LAN from the ground up to support reliable connectivity for critical healthcare operations.
- Deployed network equipment, structured cabling, and Wi-Fi systems across the full facility.
- Managed NHIS claims processing with the ClaimIt application, including data entry and healthcare documentation.
- Provided day-to-day technical support while maintaining zero downtime for patient care systems.

IT Technician - Infrastructure & Finance

Akenten Appiah Menka University (AAMUSTED)

Aug 2022 - Sept 2025
Kumasi, Ghana
Full-time

- Managed IT infrastructure supporting 500+ users across multiple campus buildings, including servers, networks, and telecommunications.
- Deployed 30+ Ubiquiti access points and 5 M5 point-to-point links, improving wireless coverage by 85% and reliability by 60%.
- Designed and implemented the LAN and Wi-Fi network for a 1,500-seat lecture block, delivering 99.5% uptime.
- Administered Windows Server environments with Active Directory for 300+ users, including group policies and security configuration.
- Resolved Sisco Topaz financial software issues with a 95% first-call resolution rate.
- Handled system patching, backups, and disaster recovery with zero data loss.

Founder & Lead Technician

Bright Ko Technology

2019 - Present
Kumasi, Ghana
Self-employed

- Built and operated an IT solutions company delivering network infrastructure and security systems for educational and commercial clients.
- Kwasi Oppong Schools: deployed a 32-camera CCTV system, complete Wi-Fi infrastructure, and a structured LAN network.
- Ghanaian German International School: installed Arlo security cameras with integrated Wi-Fi and LAN connectivity.
- Lucienne Community School: implemented a full Wi-Fi and LAN solution.
- Delivered 10+ infrastructure projects on time and within budget with 100% client satisfaction.

IT Technician (National Service)

Akenten Appiah Menka University (AAMUSTED)

Sept 2021 - Aug 2022
Kumasi, Ghana
National Service

- Configured Cisco network equipment across 15+ campus locations, reducing downtime by 35%.
- Administered Windows Server and Active Directory for 300+ user accounts.
- Provided tier 1 and tier 2 technical support, resolving an average of 25+ tickets each week.
- Installed VoIP equipment for conference rooms and performed network troubleshooting.

IT Technician

Seneps Data Solutions

2016 - 2021
Kumasi, Ghana
Part-time

- Designed and implemented LAN infrastructure for SME clients, improving system performance by 40%.
- Diagnosed hardware and software issues while managing network configuration with minimal downtime.
- Managed firewall settings and IT security protocols for financial and business applications.
- Explained technical issues in client-friendly language and built strong long-term relationships.
